

I'M SORRY

David Ryall as the US President sings the only recording we have of I'm Sorry at the Royal Albert Hall Premiere in 1981

I'm sorry, I wish I could
But I can't – it's too late
We've gone too far to change our ways
To undo what has been done

Forgive me, I know you're right
It all may happen some future time
But I am helpless on my own
To undo what has been said

It's an impossible dream
One I'd love to share
An impossible dream
If only I could dare....

I'm sorry, what can I do?
If only I was more like you
It seems so simple – it could be done
To move a mountain, to move a sun!

Powerless though I am
To change a world that's upside down
If only I could see it through
And believe – believe like you

An impossible dream!
Some times they come true
Yes – impossible dreams!
If only they were true!

An impossible Dream!
One I want to share
An impossible dream
If only I could dare
